4. FIRST AID MEASURES

INHALATION – In case of inhalation poisoning symptoms (cough, shortness of breath, giddiness) move to fresh air. Ensure the calm in half-lying or half-sitting position, exercise can cause emphysema. Protect against heat loss. Seek medical advice.

SKIN CONTACT – In case of clothes poisoning, immediately take them off and rinse the skin with plenty of water (current water is the best). In case of the skin irritation or burns consult a doctor.

EYE CONTACT – In case of contact with eyes, rinse them immediately with plenty of cold water (at least during 15 minutes) keep the eyes open, seek medical advice.

INGESTION – In case of ingestion, do not cause vomiting. Give water to drink. Do not give any other neutralizing agents. Immediately consult a doctor, show label if possible

FURTHER INFORMATION: In case of fire inform all persons nearby on fire, evacuate third persons from danger area, call the call fire brigade. If possible remove the containers away from the influence of fire and high temperature. If impossible cool the container by stream of water. The after burning residues should be removed.

6. ACCIDENTAL RELEASE MEASURES

PERSONAL PRECAUTIONS: protective acid resistant clothing, self-contained breathing apparatus; protective acid resistant gloves, protective glasses.

Avoid direct skin and eyes contact; ensure suitable ventilation.

ENVIRONMENTAL PRECAUTIONS AND METHODS FOR CLEANING UP: In case of unintended release substance into environment inform on emergency and remove the source of leak. Prevent from entering sewers. If it is possible eliminate the leak (close liquid flow, make tight, damaged container put into protect leak proof wrapping) For huge leak, absorb the place where it can be accumulated, pump out if possible. Small quantity of leak absorb by inflammable absorbing material (sand, solid, sawdust, fines limestone), and next place in the appropriate waste container- pass to utilization. Polluted surface wash out.

7. HANDLING AND STORAGE

7.1. HANDLING

Handle with preparation very carefully. Require use the appropriate individual protection equipment – see point 8.

Mixing only with water. Under no circumstances do not mix with other chemical substances.

Person with skin or respiratory system allergy should not have contact with this substances.

Avoid risks – before usage read operating instruction carefully.

After usage close tightly, keep away from unauthorized persons.

During operation with substances ensure good air-ventilation room in order to avoid inhalation poisoning.

7.2. STORAGE

Keep only in original container made from plastic (polyethylene with the high quality of HDPE). Do not pour to replaceable containers. Keeping the container in dry, tightly closed rooms with temperature + 5 ÷ 30° C with the good ventilation, rooms should have easy clean floor alkali resistant. Keep away from sun and heat. Keep away from ignition and fire sources.
