

**TECHNICAL DATA SHEET****LEDER PROT GT**

SYMBOL	pH
F-09	-

Ready-to-use formulation for the treatment of suede, nubuck and natural leather not oiled. The use of a unique formula allowed to obtain the impregnated surface "lotus effect" - the area has a strong repellent impregnated with hydrophobic properties, so that water does not penetrate into the structure of the material, and rolling on the surface in the form of drops. At the same time the structure of the surface is not closed, so that the surface breathing. In addition, the use of impregnation reduces the impact of weather and sunlight, protecting the surface from fading

**APPLICATION:**

- suede
- nubuck
- outer skins not oiled.

**COMPOSITION:**

< 20% etanol, > 20% izopropanol, < 10% acetate of the butyl, < 5% polymers, < 20% light petrol treated to hydrogen (petroleum) low-boiling oil fraction treated to hydrogen.

**USAGE:**

**IMPORTANT!** Before using preparation check the permanence of the leather color.

It may result that the color will change.

Thoroughly cleaned, degreased, dry surface evenly covered with dew spray, allow to dry.

Caution! It should not be applied in a closed room without ventilation.

**DANGER:**

F - Highly flammable

Xn - Harmful

R11 - Highly flammable

R36 - Irritating to eyes

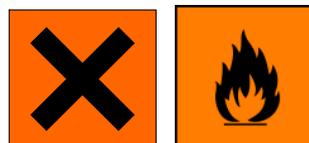

R65 - Harmful: may cause lung damage if swallowed

R66 - Repeated exposure may cause skin dryness or cracking

R67 - Vapours may cause drowsiness and dizziness

R52/53 - Harmful to aquatic organisms, may cause long -term adverse effects in the aquatic environment

S16 - Keep away from sources of ignition In the hinterland

**TECHNICAL DATA SHEET**

S26 - In case of contact with eyes, rinse immediately with plenty of water and seek medical advice

S28 - After contact with skin, wash immediately with plenty of water

S36/37 - Wear suitable protective clothing and gloves

S45 - In case of accident or if you feel unwell, seek medical advice immediately - if possible, show the label

S1 / 2 - Keep locked up and out of reach of children

**SELL-BY DATE:**

12 months from date of manufacture. Date of production / series and the expiration date stated on the packaging.

**ADDITIONAL INFORMATION:**

Accessible additional information in the card of characteristics of the dangerous chemical preparation.

*Contaminated packaging must be completely emptied. Rinse empty containers with water several times used as preparation. Empty container can be stored in containers for collection of plastic packaging, or by a specialized company for recycling. Comply with the provisions of the Act of 11 May 2001 on packaging and packaging waste (Journal of Laws No. 63, item. 638), as amended*
